

Vladislav Bakin

Go Backend Developer

meidorislav@gmail.com | meidori.tech | github.com/Meidorislav

Perm, Russia

ABOUT ME

I'm a 3rd-year student at PNRPU, majoring in Informatics and Computer Science. Deeply passionate about Go Backend Development and a dedicated Arch Linux user. Currently actively looking for an Internship as Go Backend Developer. I focus on high-performance systems and clean architecture, with a goal to build robust infrastructures within the Fintech industry. Hackathon participant, team leader, and advocate for open-source software.

EXPERIENCE

LLC "Information Service Center"

SQL Developer | May 2026 - July 2026

Specialized in database optimization, complex SQL queries, and efficient data management. Worked with PostgreSQL and relational database design.
